## Check List for all documents

1.

- Missing configuration reference
- Incorrect version number
- Missing status (Draft/ release)

2. Header should include status

3. The footer should contain "Aberystwyth University - Computer Science, Page x of y" (only has page Y)

4.

- Missing references
- Missing document history with version, CCF No, Date, changed by

## Design Specification review

- Document meets general document standards
- The document does adequately address the overall architecture of the system

### Section 2.1 - UI Testing

> There are no test reference numbers next to tests

### Section 2.3 - App Functionality Testing

> Test content descriptions are not complete on every test and should be

> Output fields not complete on every test

> Pass criteria incomplete of some tests

> Requirement tested incomplete on several tests

- The design is understandable
- The design specification document is of appropriate size and cannot be easily simplified
- The design does lead to a maintainable and easily testable system
