CS221 Group 3 project progress

Requirement	Functions	Code	Progress
FR1 Startup of	NewRecord	record = new SpeciesRecord();	100%
software on Android	void addRecordPressed()	getSpecies();	Able to start a new
device	void additectivi resseu()	getDAFOR();	recording
		getDArON(), getTypicalLocation();	recording
		getTypicalLocation(), getInfo();	
FR2 Providing	UserDataView		<mark>60%</mark>
information about the		String phone = "";	
visit	String getEnteredPhoneNumber()	try {	Missing Date and Time
		EditText et = (EditText) findViewByld(R.id.phone);	information collection
		phone = et.getText().toString();	
		} catch (Exception e) {	
		// failed to get the name string	
		Toast.makeText(getApplicationContext(),	
		"Please enter a phone number",	
		Toast.LENGTH_SHORT).show();	
		}	
		return phone;	
	UserDataView	String name = "";	
	String getEnteredName()		
		try {	
		EditText et = (EditText) findViewById(R.id.name);	
		name = et.getText().toString();	
		} catch (Exception e) {	
		// failed to get the name string	
		Toast.makeText(getApplicationContext(), "Please enter	
		a name",	
		Toast.LENGTH_SHORT).show();	
		}	
		return name;	

	UserDataView	String email = "";	
String getEnteredEmail()		try {	
		EditText et = (EditText) findViewById(R.id.email);	
		email = et.getText().toString();	
		} catch (Exception e) {	
		// failed to get the name string	
		Toast.makeText(getApplicationContext(),	
		"Please enter a valid email address",	
		Toast.LENGTH_SHORT).show();	
		}	
		return email;	
	UserDataView	String n = getEnteredName();	
	void pressButton()	String ph = getEnteredPhoneNumber();	
	, ,	String e = getEnteredEmail();	
		Editor editor = sharedpreferences.edit();	
		editor.putString(Name, n);	
		editor.putString(Phone, ph);	
		editor.putString(Email, e);	
		editor.commit();	
FR3 Adding a species			10%
to the recording			Still finding a solution to
			show the list of species
FR4 Adding species	NewRecord	et = (EditText) findViewById(R.id.speciesName);	50%
details	void getSpecies()	record.setSpeciesName(et.getText().toString());	GPS not complete
	Jane Para Vi		Photo function not tested

SpeciesRecord	return speciesImage;	
File getSpeciesImage()		
SpeciesRecord	return typLocation;	
String getTypLocation()		
NewRecord	Spinner spinner = (Spinner) findViewById(R.id.dafor_spinner);	
void getDAFOR()		
	record.setDafor(spinner.getSelectedItem().toString().charAt(0));	
NewRecord	et = (EditText) findViewById(R.id.typLocation);	
<pre>void getTypicalLocation()</pre>	record.setComments(et.getText().toString());	
NewRecord	et = (EditText) findViewById(R.id.info);	
void getInfo()	record.setComments(et.getText().toString());	
NewRecord	Intent intent = new Intent(Intent.ACTION_PICK,	
void getGalleryImage(String type)		
	android.provider.MediaStore.Images.Media.EXTERNAL_CONTENT_URI);	
NewPeard	startActivityForResult(intent, 2);	
NewRecord	Intent intent = new Intent(MediaStore.ACTION_IMAGE_CAPTURE); File f = new	
void getCameraPhoto(String type)	File (android.os.Environment.getExternalStorageDirectory(),	
	"temp.jpg");	
	intent.putExtra(MediaStore.EXTRA_OUTPUT, Uri.fromFile(f));	
	startActivityForResult(intent, 1);	

	SpeciesRecord public String getSpeciesName()	return speciesName;	
	SpeciesRecord File getLocationImage()	return locationImage;	
	SpeciesRecord getComments()	return comments;	
	SpeciesRecord getDafor()	return dafor;	
FR5 Editing the recording	SpeciesRecord setDafor(char dafor)	this.dafor = dafor;	33% Missing: deletion of the whole recording
	SpeciesRecord	this.comments = comments;	deletion of the record for one species
	void setComments(String comments)		
	SpeciesRecord public void setSpeciesName(String speciesName)	this.speciesName = speciesName;	

	SpeciesRecord void setTypLocation(String typLocation)	this.typLocation = typLocation;	
	SpeciesRecord void setLocationImage(File locationImage)	this.locationImage = locationImage;	
	SpeciesRecord void setSpeciesImage(File speciesImage)	this.speciesImage = speciesImage;	
FR6 sending record to server			55% We tested connection between the data base and the app but have not implement to it yet
FR7 Receiving recordings on the server	/	/	40% The sending part is not yet complete so do the receiving part
FR8 Addition and maintenance of reserves data	/	/	90% Missing location OS grid reference
FR9 Browsing species records	/	/	50% We got reserves but not complete the records in reserve
