©GROUP 3, ABERYSTWYTH UNIVERSITY

Check List for all documents

1.

- Missing configuration reference
- Incorrect version number
- (2) Missing status in header of each page (Draft/ release)

3. The footer should contain "Aberystwyth University - Computer Science, Page x of y" (only has page Y)

4. Document history with version number, and 'changed by' information incomplete

Design Specification review

- Document meets general document standards

Section 2.1
- Introduction almost complete, objectives section needs completion

Section 2.2
- Choice of platform mentioned, but not discussed properly
- Target users not included
- High-tech architecture section complete

Section 2.3
- Use case diagram created but not implemented in final document
- Use case descriptions accurate and complete

Section 2.4
- Initial mock-up images of application created, however where included in the project plan document, the images are far too dark, issue needs to be addressed
- Incomplete representation of what each button would do upon pressing

Section 2.5
- Gantt chart completed

Section 2.6
- Risk analysis missing 'Alternative procedure' methods in several cases
- Also needs implementing into project plan document, instead of stand-alone document
